

Antonia Bertolino

Antonia Bertolino is a CNR Research Director at the Institute for Information Science and Technologies Alessandro Faedo" (ISTI) in Pisa, Italy. She is an internationally renowned researcher in Software Engineering and the author of more than 200 papers. She has participated to many collaborative research projects, including more recently the European ElasTest, Learn PAd and CHOReOS.

She was the founder and leader of Pisatel (2001-2010), a joint laboratory between ISTI-CNR and Ericsson Lab Italy, for collaborative research and PhD and Post-doc training. Since 2013, she is a visiting professor and faculty board member in the GSSI international PhD school. She has been part of several international committees, including the ERC ADG PE6 Panel, and the Science Europe Scientific Advisory Committee.
